

Composite Roofing Components

UNIVERSAL TILE RIDGE VENT

Quarrix all-in-one Universal Tile Ridge Vent combines ridge ventilation and weather blocking into one product. It creates ventilation and airflow under the tile and helps achieve a cool roof system. The closure system attaches to any tile or metal roof with a simple peel-off butyl adhesive. Made of durable UV-resistant aluminum.

PART #	#227292	#227295	#227293	#227294
COLOR	Black use with Black & Sage	Terra Cotta use with Desert Red	Venetian Red use with Canyon Earth	Brown use with Saddle Brown
WIDTH	15¾"	15¾"	15¾"	15¾"
LENGTH	16'	16'	16'	16'
PITCHES	3/12 to 20/12			
WEATHER BLOCKING MATERIAL	Durable UV-Resistant Aluminum			
ADHESIVE	High-temperature butyl adhesive with synthetic release liner - can be applied in 40°F to 210°F			

BENEFITS

- Easy to Install
- Architectural Appeal
- Proven Performance
- Complete System

UNIVERSAL TILE FLASHING

Quarrix Universal Tile Flashing is the all-in-one defender against water damage and roof leaks on pitched roofs. A fully adhered, expandable aluminum flashing, with an 11-3/4" width that provides continuous protection on all roof-to-wall applications. This flashing easily contours to the shape of the roof and adheres to most roofing materials including asphalt, clay, concrete, steel and composite roof tile. Designed with a unique butyl backing that provides a weather-tight seal on the following roof applications: headwall, chimney, hip, ridge, gable end, skylight or pipe stack.

PART #	#226490	#227289	#227290	#227291
COLOR	Black use with Black & Sage	Terra Cotta use with Desert Red	Venetian Red use with Canyon Earth	Brown use with Saddle Brown
WIDTH	11¾"	11¾"	11¾"	11¾"
LENGTH	16'	16'	16'	16'
PITCHES	3/12 to 20/12			
WEATHER BLOCKING MATERIAL	Durable UV-Resistant Aluminum			
ADHESIVE	High-temperature butyl adhesive with synthetic release liner - can be applied in 40°F to 210°F			

BENEFITS

- Universal
- Durable
- Architectural Appeal
- Complete System

Composite Roofing Components

TILE FASTENERS

Quarrix Tile Fasteners are heavy-duty corrosion resistant exterior grade fasteners designed specifically for specialty roofing applications. The high-low thread configuration and spade-point quickly and easily penetrates wood, steel and composite materials. Tile Fasteners are available in 1200-count Pails and 100-count Packs.

PART #	#217849	#217851
COLOR	Black	Black
THREAD LENGTH	1½"	1½"
OVERALL LENGTH	2¾"	2¾"
PIECES	1200 Qty Pails	100 Qty Packs

Engineered to be Your “Go-To” Outdoor Fastener

Large .40" pan head securely anchors tile, plates, clips and brackets for a variety of outdoor applications. High corrosion resistance with PPG Powercron®XP epoxy coated hardened steel tested to SAE J78 standard.

Designed for Performance and Efficiency

Twin lead “high-low” thread pattern ensures easier penetration, faster driving and superior backout resistance. Extra sharp spade point means quick and easy penetration into wood, steel and composite material. 2-3/4" length meets installation specifications for installing Quarrix light-weight composite roof tile.

Made in the USA

Like all Quarrix’s products, Quarrix Tile Fasteners are made in the USA.
